I have heard from everyone but James. Based on responses we will have the PAS August 20. Would you prefer to have one session in the afternoon and one at night? Or would you prefer to have one at night and none during the day?

I am going to start looking for a location for the meeting. If any of you have recommendations on a suitable location please let me know.

We will have a meeting week after next to finalize plans for the meeting. I will send a meeting notice when a time that works best for everyone is identified.

I look forward to working with all of you to make the PAS a success.

Subject: Release of 35th Avenue Site soil health consultation

Good morning,

I spoke with Danielle Langman, the author of the health consultation. She is not available August 11 to participate in the PAS, so we will reschedule the session.

Dates proposed by ATSDR staff are August 18 or August 20. Please let me know which of these dates best fit your schedule.

Subject: Release of 35th Avenue Site soil health consultation

Good morning Anita and Glenn,

The 35th Avenue Site lead, arsenic and PAH health consultation will be released July 22, 2015. Copies of the document will be distributed at this time to our 35th Avenue mailing list (governmental officials, neighborhood representatives, EPA). Please provide this information to appropriate EPA staff.

We are planning the PAS at this time. I understand August 11 is the preferred EPA date. I will see if I can find a location to hold the meeting on this date. I would like to schedule a meeting with EPA to finalize the plans for the meeting. Please let me know the EPA staff you would like to include in the planning meeting and I will schedule the meeting.

If you would like to discuss this information please call me on my cell phone at the number below. I will be back in the office tomorrow.

Neema and I are working on a location now. I asked everyone in the email if they knew of a meeting location that worked better than others in the past. If anyone has a preferred location we will try to use it. If not I will find a location.

Sue,

I have no preference.

Neema, can you get with some other CICs (especially Stephanie) and see what generally works best? Maybe consult with the Community Presidents as well.

Thanks,

Rick

Good evening

Please hold August 20 as a tentative date for the PAS. Anita is on vacation this week and would like to discuss the meeting with Neema before we finalize the date. As soon as Neema has a chance to discuss the date with Anita I will send out a final meeting date. Until then hold August 20th as a tentative date.

Thanks.

Neema,

If you all could share the communication materials you develop with us, we'd appreciate it. It'll help ensure we're all saying the same thing.

Thanks for all you're doing to support the 35th Avenue site. There's lots going on!

Hi Melissa,

We have been in close contact with Sue Casteel from ATSDR. We are working closely with ATSDR to co-host an availability session mid-August at 35th Avenue Site. Meanwhile, we will work on completing communication materials and logistics for the upcoming availability session. Please let me know if you need additional information.

Thank you,
Neema Atashi

Hi Jennifer and Neema,

I'm working with Lois Gartner on communications work in OSRTI. It seems that ATSDR is planning to release the 35th Avenue Site soil health consultation report in the near future. Do you know what sort of communication materials the region might be

planning related to this document's release?

Thanks

Melissa
